Corporation,  
8<sup>th</sup> floor CMRL,  
Nandanam,  
Chennai – 600035.

**To,**

All empaneled training partners of  
TNSDC.

**Dear Training Partners,**

**Sub:** TNSDC AEBAS MONITORING SYSTEM - Upgrade from L0 device to L1  
AEBAS device - Before 30.06.2024- Intimation - Req- Reg

**Ref:** 1. AEBAS NIC New Delhi UIDAI Letter dated: 27.01.2023  
2. AEBAS NIC New Delhi email dated: 14.12.2023

We hope this letter finds you well.

We are writing to inform you about an important update regarding our attendance tracking system (AEBAS Aadhar Enabled Biometric Attendance System).

Concerning the 1<sup>st</sup> cited UIDAI and NIC , New Delhi has instructed to upgrade the biometric attendance devices from the current L0 AEBAS device to the L1 AEBAS device for all the Government organizations in India.

The L1 AEBAS device offers several advantages, including improved accuracy, enhanced data encryption, and additional features for seamless integration with our existing attendance management software.

Regarding 2<sup>nd</sup> cited to ensure a smooth transition, NIC New Delhi has instructed TNSDC to request all the training partners to purchase the L1 AEBAS device and replace the existing L0 AEBAS device at your premises before 30th June 2024

after this date the L0 devices will be completely removed from NIC AEBAS portal and you will not be able to capture attendance using L0 RD device. This upgrade is essential for maintaining compliance with regulatory requirements and optimizing the effectiveness of our attendance monitoring system.

We understand that this transition may require coordination and resources on your end, and we are committed to assisting in the process. Please feel free to reach out to our technical support team for any guidance or support needed during the installation and setup of the new devices.

We appreciate your cooperation and understanding in this matter. By upgrading to the L1 AEBAS device, we aim to enhance the security and efficiency of our attendance tracking system, benefiting both our TNSDC and our valued training partners.

We look forward to your cooperation and a successful transition to the new biometric attendance devices.

Thank you for your attention to this matter.
